## Old Age

There are a class of fools who say they do not care to live to old age, while there are hundreds of men and women between the ages of eighty and ninety as lively and independent as the average person of forty. Old age is exactly what you make it. Taking care of your health while you have it, and by eating good, nourishing food, will prolong your days.

## ISSUES A STATEMENT

Attorney for Accused Miners  
Scores Roosevelt.

## LETTERS FROM PRESIDENT

Republished in Every Paper in Idaho, Where the Press is Alleged to Be Very Bitter Against the Men Accused of Killing Steunenberg.

Boise, Ida., May 2.—Clarence Darrow of counsel for Messrs. Haywood, Moyer and Pettibone of the Western Federation of Miners, who are charged with complicity in the murder of Former Governor Steunenberg, has issued a formal statement. It was anticipated that the statement would be a direct reply to President Roosevelt's "undesirable citizen" letter, but the statement is general and references to the president are to former letters of the executive. The statement in part follows:

"We have been charged with killing Ex-Governor Steunenberg with a dynamite bomb. Our trial is to begin May 9. The details of the assassination have been published broadcast for more than a year. The press of the country, especially of that section of Idaho where we will be placed on trial, has bitterly denounced us and the Western Federation of Miners, to which we belong.

"We were not in Idaho for years before the crime was committed. Under the law we could not be extradited from Colorado. But we were arrested on a perjured affidavit charging that we were in Idaho at the time of the commission of the crime and that we immediately fled from the state and on this perjured affidavit the governors of Idaho and Colorado kidnapped us in the night, refused us a chance of appeal to the courts and brought us on special train 1,000 miles from home and into a state and community systematically poisoned against us by newspapers and officials. We have been confined in jail fourteen months and denied bail while constantly demanding a trial.

"Our case in about to be reached and the president of the United States, in no way interested, officially or otherwise, sends two letters broadcast over the country charging us with guilt and crime. These are republished in every paper in the land, and especially every paper in Idaho. The governor of Colorado adds words of spite and venom to the president's and says that we are not only guilty of the crime charged, but many others, too.

"If we are about to be tried in court every law-abiding citizen should do everything in his power to cool the passions of man, rather than add fuel to the flames."

"Martial law will not be declared in Boise unless disturbances should occur and make such a step necessary," said Governor Gooding when shown a statement that it was his intention to place Ada county under martial law at the commencement of the trial of William D. Haywood.

## SYMPATHY FOR MINERS.

Socialists and Labor Unionists Parade in New York.

New York, May 2.—With the "Marseillaise" as their marching hymn more than 6,000 Socialists and labor unionists paraded the Brownsville and East New York sections of Brooklyn to show their sympathy for Moyer, Haywood and Pettibone, the labor leaders charged with the murder of Former Governor Steunenberg of Idaho. Every man wore a picture button of the accused men and several large banners picturing them as martyrs in a righteous cause were also displayed. Red flags and American flags were equally in evidence. A meeting in Congress hall followed. This meeting adopted resolutions of sympathy for Moyer, Haywood and Pettibone.

A similar parade took place in Manhattan, the marchers, who wore red badges, finally assembling at Union Square, where several addresses were made. The red flag was in evidence and before the speaking the bands played the "Marseillaise." The speakers attacked the administration and sought to arouse sympathy for Moyer, Haywood and Pettibone. Probably 3,000 persons heard the speeches.

## Jewelry Thief Confesses.

New York, May 2.—A. Preston Greene, who with Charles A. Roehrer was arrested here upon the arrival of a steamer from Europe on March 17 charged with the theft of several thousand dollars worth of jewelry in London, confessed when arraigned in court. Greene exonerates Roehrer, taking the entire responsibility himself.

## Bandits Kill Hebrew Merchants.

Warsaw, May 2.—Near Pabianice, bandits attacked a carriage containing five Hebrew merchants, whom they shot and killed. The robbers took money and valuables and threw the bodies into the river.

"Our ready-to-wear section will assist greatly in the preparation and will insure you the very best tailored garments.

## FAIL TO BREAK RECORD.

Aeronauts Land Over a Hundred Miles From St. Louis.

Golconda, Ill., May 2.—Captain Charles De F. Chandler, United States signal service, and J. C. McCoy of New York failed to break the long distance balloon record and win the Lahm cup. The balloon which left St. Louis Tuesday evening landed five miles north of Golconda Wednesday afternoon. Golconda is only 130 miles from St. Louis. Changeable air currents demonstrated to the aeronauts

that they could not win the cup and for that reason they made the landing near here. The balloon was brought here in wagons. McCoy goes with it to New York, while Captain Chandler goes to Washington.

## No Change in Vote.

Madison, Wis., May 2.—Owing to the trip to Devils Lake, the members of the Republican senatorial caucus were in no humor to prolong the caucus and adjourned after one ballot was taken. No change resulted from the vote taken at the joint session of the legislature.

## WITHOUT FOUNDATION.

Charge of Conspiracy Against Carrington, Scrugham and Stirrup.

New York, May 2.—Formal statements from those especially interested in the inquiry into the recent election of directors of the New York Life Insurance company and which has already resulted in the arrest of George B. Scrugham, manager, and two employees of the International Policyholders' committee have been made.

Mr. Scrugham declared that the charge of conspiracy against Charles F. Carrington, Charles Stirrup and himself, that they had permitted tampering with ballots is without foundation and intimated that the accusations were inspired by those unfriendly to the committee.

Samuel Untermyer, counsel to the International Policyholders' committee, said that he was unable to see wherein Mr. Scrugham had been even technically at fault, and added:

"The companies will have to try once more if they expect by such transparent devices to cover their own tracks and obstruct the pending legislation for a reform in the insurance election law that will do away with the frauds and forgeries."

Scrugham, Stirrup and Carrington were arraigned in court and their cases were continued until Monday. All were released on bail.

## DISORDERS IN PARIS

Riotous Scenes Mark May Day in the French Capital.

## MANY PERSONS ARE INJURED

Over One Thousand Arrests Made by the Police—Naturalized American Jew Shoots Two Cuirassiers and is Mobbed by an Angry Crowd.

Paris, May 2.—The expectation that May day would pass off without violence was not realized.

The day began calm, but toward evening the vicinity of the trades union headquarters became turbulent and many persons were injured. The stringent precautions taken and the stern determination to repress disorders, however, brought tranquility before midnight.

The total of the day's operations was over 1,000 arrests; twenty persons, including policemen and citizens, badly injured, and a great number of persons suffering from contusions or from being trampled.

One of the gravest incidents occurred when Jacob Law, a Russian, who is a naturalized American, from the top of an omnibus fired five shots, by which two cuirassiers were wounded.

The crowd attempted to lynch Law, but he was rescued by the police after he had been severely mauled and was taken to police station.

Several other incidents occurred during which firearms were used. After a meeting at the labor exchange 5,000 men proceeded to the headquarters of the labor federation, hooting the police. Charges were made by the police and a woman fired, the bullet striking a member of the bicycle patrol. The police drew sabers and revolvers and a lively melee followed, lasting half an hour. The police pressed the crowd from the Quai Jemmapes to the banks of St. Martin's canal where 200 arrests were made and many persons were hurt.

Later in the evening in the Place de La Republique the police while arresting rioters were surrounded by a threatening crowd, which attempted to rescue prisoners. Sabers were used freely, and finding their position perilous the police fired in the air. A fur-

ther detachment charged and dispersed the crowd.

Dispatches received at the ministry of the interior report calm everywhere in the provinces.

## MESSAGE FROM MAGOON.

Throws Little Light on the Affair at Santiago.

Washington, May 2.—Secretary Taft has received a cablegram from Governor Magoon regarding the attack on the American sailors at Santiago. With the information now at hand the provisional governor is unable to throw much light on the affair, but informs the secretary of war that he is making a thorough investigation of the trouble and will later submit his report to Secretary Taft. For fear Governor Magoon's message may be misinterpreted and cause criticism of certain officials before all the facts are known Secretary Taft has decided not to make it public.

### No Trouble in Pittsburg.

### BRONCHIAL COUGHS

Breathe Hyomei's Healing Air and All Irritation Will be Quickly Cured.

The most irritating and annoying form of cough is that termed bronchial. People subject to bronchial troubles whenever there is a change in the weather or they are exposed to a draft will "catch" a bronchial cough which is very disagreeable, irritating and annoying.

Bronchial troubles cannot be cured by stomach dosing. The medicated air of Hy-o-mei is the only treatment that reaches the affected parts and gives relief and cure. It destroys all the disease germs that are present in the nose, throat and lungs, soothes and relieves the irritated mucous membrane in all parts of the bronchial tubes and quickly overcomes the irritation.

Bronchitis is really an inflammation of mucous membrane lining the air passages and is purely a local disease, so that it needs a local treatment like that afforded by Hy-o-mei.

If there is any doubt in your mind as to the power of Hy-o-mei to cure bronchial troubles so that the system will resist coughs and colds, the unusual way in which it is sold by H. P. Dunn & Co. should dispel that doubt. They agree to refund the money to any purchaser of Hy-o-mei who is not perfectly satisfied with the results following the use of the remedy. They take all the risk and if the remedy does not help you it does not cost you a penny, while if it cures, the expense is nominal, for a complete Hy-o-mei outfit is sold at only \$1.00.

C. D. Herbert Receives Letter  
From Son on Battleship  
Virginia

### BUILDINGS NOT COMPLETED

Invites Visitors From Brainerd  
and Vicinity to Visit Him on  
His Ship

C. D. Herbert, of this city, has received the following letter from his son Frank Herbert, who is a sailor on the United States battleship Virginia, which may be of interest to our readers:

"The Virginia," at Hampton Roads, Va., April 18, 1907.  
DEAR FATHER—We arrived from the target grounds south of Cuba, last Monday. Have lined up waiting for the exposition to open. I think a great many people will be disappointed if they come early, as the grounds are only three fourths finished. Most of the naval vessels are here and the foreigners are expected this week. "The Virginia" anchored opposite the Hotel Camberlain.

The navy department will not allow all of the battleships to remain here all the time. There will be a few in and out after the show is opened. "The Virginia" will stay until June but the others will only be here for a few weeks relieving each other.

I have not been over to the exposition grounds since we came in, have not had on opportunity, but I can see from the ship that it will be a couple of months before the piers will be finished. The boats can't land there now. Prices have gone up and grafters are getting in already. I made a trip to Portsmouth last night and was over charged twice, once in a restaurant and once by a transfer man. Before the exposition people were content with reasonable profits, but now they are money-mad. There will be a "bust" after the show and you can buy Norfolk for a song. The grafting will "hoodoo" the place.

I don't think I will be on the show grounds very much. I am to have a pass as long as I stay here but I'd rather spend my money in New York.

If any Brainerd people come down I'd be pleased to show them my ship. I'm going to try to show them Virginian hospitality.

Had to wear an overcoat today. It has been colder this week than I ever saw it here before.

Your loving son,

FRANK.

### PIKE BIGGEST EVER

S. F. Fullerton Talks in St. Paul Regarding Gull Lake Fish and the Fisheries

Pioneer Press:—Samuel F. Fullerton, superintendent of hatcheries for the state game and fish commission, has returned from Brainerd, where he was superintending the work of getting pike eggs from the fish of Gull lake, twenty-six miles north of Brainerd. The fish are caught in wire funnel traps at the outlet of the lake.

"I never before saw such pike," said Mr. Fullerton. "Some weighed at least twelve to fifteen pounds, immense fellows."

"The work this season is very successful. When I left the men had secured some 6,000,000 eggs. They hope to get 50,000,000 before they leave. There are two camps, one in charge of P. Stevens, and the other in the hands of J. P. Saunders, the deputy warden at Brainerd. I expect to go to Tower tomorrow, where we hope to get 25,000,000 to 30,000,000 eggs. John Green, the deputy warden at Duluth, has a crew of men at work on the St. Louis river at Fond du Lac. We believe he is successful, though as yet we have heard nothing from him."

"We have ordered new equipment for the hatcheries, and expect this season to be a record breaker in the hatching of at least 300,000,000 pike eggs. This will be done at both Glenwood and St. Paul."

### SAVE STRANDED FISH.

"At Glenwood, the new cement bass ponds are now finished, and the bass nests being placed. These nests consist of boxes of sand laid on the cement bottom, in which the fish lay their eggs. This method of getting bass fry is new, but we have every hope it will be very successful."

"We are arranging soon to start out our new launch and houseboat on a Mississippi river trip after bass fry. In this high water the bass go into the sloughs and ponds and lay their eggs. There the fry hatch and generally are stranded when the water recedes. As a result millions of bass fry are annually killed. It is our aim to collect these fry, and instead of letting them die use them to restock our lakes."

For a mild, easy action of the bowels a single dose of Doan's Regulets is enough. Treatment cures habitual constipation. 25 cents a box. Ask your druggist for them.

### A PLEASANT WEDDING

Wm. Meekins and Mrs. Grace L. Nichols United in Holy Bonds of Matrimony

### SURPRISED BY BOILERMAKERS

Tendered a Reception by the Groom's Fellow Workmen At Their Home

At St. Francis church at 7 o'clock last night were spoken the words which united the destinies of Mrs. Grace L. Nichols and Wm. Meekins, both of this city. The bride was supported by Mrs. Hawley, while Mr. Pendergast, of East Brainerd was best man. Lohengrin's wedding march was played by Miss Scallen while the bridal party approached the altar, Miss Scallen also sang an Ave Marie during the ceremony. After the ceremony the bridal party repaired to the residence at 219 North Tenth street where they will reside.

They were surprised a little later by a call from the boilermakers at the Northern Pacific shops, fellow workmen of the groom, who presented them with a handsome sofa and a beautiful rocking chair. They spent the evening with music and conversation, departing shortly before midnight.

The groom is well known here, having resided in Brainerd for many years and has many friends. The bride is a more

recent arrival, but is highly spoken of by those who know her. Their many friends extend hearty congratulations

### BEEN INSPECTING DAMS

Col. Bixby, of Chicago, was in the City Yesterday After Tour of Government Dams in Minnesota

Col. Bixby, of Chicago, who has general supervision of the dams in the Northwest, was in the city yesterday on his way home from trip of inspection of the dams of northern Minnesota. He states that he finds the dams in good shape. Ten dykes on the Pine river dam will have to be raised two to three feet each before the lake can be raised to the desired level.

As to the Gull lake dam, Mr. Bixby states that the matter is hung up until such time as the flowage adjacent to the lake can be acquired without expense to the United States government and no work will be done along that line this year.

## GENERAL STRIKE RESULTS

Answer to Placards of Commanding Officer at Baku.

Baku, May 2.—A general strike has broken out here in answer to the placards posted by General Taube ordering the strikers in the naphtha industry to return to work on pain of imprisonment and a fine or expulsion and declaring that acts of violence would be mercilessly repressed by force. ## IRONWORKERS ON STRIKE.

Three Thousand Men Quit Work at San Francisco.

San Francisco, May 2.—Three thousand men engaged in the iron trades in this city and around the bay walked out of the shops because their employers had refused an eight-hour day. The Union iron works, the Risdon iron works and twenty other shops are completely tied up.

Twenty-seven shops granted to the men the eight-hour day for which the fight is being waged and 10 per cent of the men continued at work. An arbitration proposal has been made by the organization of employers, but the men will stay out pending its consideration.

When all remedies utterly fail, you may still win in the battle against lung and throat troubles with New Discovery, the real cure. Guaranteed by H. P. Dunn & Co., druggists, Brainerd, Minn. 50c. and 1.00. Trial bottle free.

### Ice-men on Strike.

Minneapolis, May 2.—This city is confronted by an ice famine. All of the employees of the four large companies that comprise what is known as the "ice combine" have gone out on strike. They have declared that they will not return to work until the companies have granted them an increased scale of wages that would amount to about \$10 a month for all classes of employees. The strikers number 225.

I am now doing business again as of old, and am still gaining daily." Best tonic medicine on earth. Guaranteed by H. P. Dunn & Co., druggists, Brainerd, Minn. 50c.

## A Wonderful Record.

As made up by improved and exact processes Dr. Pierce's Favorite Prescription is a most efficient remedy for regulating all the womanly functions, correcting displacements, as prolapsus, anteversion and retroversion, overcoming painful periods, toning up the nerves and bringing about a perfect state of health. It cures the backache, periodical headaches, the dragging-down distress in the pelvic region, the pain and tenderness over lower abdominal region, dries up the pelvic catarrhal drain, so disagreeable and weakening, and overcomes every form of weakness incident to the organs distinctly feminine.

"Favorite Prescription" is the only medicine for women the makers of which are not afraid to print their formula on the bottle wrapper, thus taking their patrons into their full confidence. It is the only medicine for women, every ingredient of which has the strongest possible endorsement of the most eminent medical practitioners and writers of our day, recommending it for the diseases for which "Favorite Prescription" is used. It is the only put-up medicine for women, sold through druggists, which does not contain a large percentage of alcohol, so harmful in the long run, especially to delicate women. It has more genuine cures to its credit than all other medicines for women combined, having saved thousands of sufferers from the operating table and the surgeon's knife. It has restored delicate, weak women to strong and vigorous health and vitality, making motherhood possible, where there was barrenness before, thereby brightening and making happy many thousands of homes by the advent of little ones to strengthen the marital bonds and add sunshine where gloom and despondency had reigned before.
